About Me

I am an aspiring Computer Scientist interested in all things relating to software development to computer and network security. I am passionate and excited to learn more about developing applications, maintaining networks and security topics.

Education

SUNY Polytechnic Institute August 2016 - May 2020

B.S. Computer and Information Science
B.S. Network and Computer Security

Previous Experience

Bae Systems June 2019 - Present

Software Engineer Intern

Worked on a team of 14 engineers fixing bugs and implementing new features for upcoming releases. Worked mostly in Java and JavaScript, as well as Yui and React.js. Focused on Services and Service Infrastructure with some overlap into the Web side of things.

SUNY Poly January 2019 - Present

Tutor

Helping students get a better understanding of topics in Computer Science, Networking and Computer Security, and Physics.

SUNY Poly January 2018 - Present

Yearbook Photographer

Go to events and take pictures of the students enjoying themselves. Edit pictures slightly in various applications.

Chapin Rainbow Stage June 2016 - August 2017

Theater Technician

Hanged and focused lights for nightly concerts or musicals. Prepared food and green rooms for performers. Operated light board during shows.

Skills

Languages

C, C++, Java, JavaScript, Dart,
Python, HTML, CSS, Bash

Tools and Frameworks

Firebase, Now, Wordpress,
React.js, Vue.js, Git, Github,
Jira, Bitbucket, VSCode, AWS,
Docker, Nginx, Gatsby

Projects

OPCS
